---This is an early notice of an event planned for the 158th Session of the Liverpool Geological Society.

LGS Members' Evening, 2016

There will be a 'Members' Evening' on Tuesday 25th October, 2016.

This evening is your chance to have your "Five (or ten) minutes of fame" and give a short presentation or talk about a geological topic to other LGS members.

If you're stuck for ideas, why not share one of the following:

- details of the most exciting geology field excursion you've undertaken (or would like to do);
- information about a new field guide book, geology book or map you've read or used;
- photographs of geological features you've seen on your holiday, on a recent LGS field excursion (or found in your back garden);
- unusual geological specimens you've found or seen (if they are not too big or heavy, you could bring these along to show/ amaze members);
- an outline of the best geological exhibit you've seen?

If you would like to offer a talk or presentation, please let Maggie Williams know by emailing: hiatus@liv.ac.uk or sending a card or letter to: Dr Maggie Williams, Department of Earth, Ocean and Ecological Sciences, School of Environmental Sciences, Herdman Building, 4 Brownlow Street, University of Liverpool, Liverpool, L69 3GP

Remember - you don't have to have been on a world cruise to have seen something related to geology that you could talk about and share with friends.
