Address: Earth Science, Liverpool John Moores University, Byrom Street, Liverpool, L3 3AF

Dear Member,

Our last Ordinary Meeting of the Session is a lecture by **Professor David Siveter** on the **Sensational Soft Bodied Fossils from the Silurian of Herefordshire** – see below for details. This lecture will be preceded by an **Extraordinary General Meeting**, at which several important changes to the Constitution will be proposed by Council, and by the **Election of Officers & Members of Council** for next Session.

However, before that we are to be led by **Joe Crossley** on a **Field Meeting to Derbyshire**. See below for details.

**** NB NO TEA/COFFEE before Prof Siveter's Lecture ****

Sat 9th April 2016 @ 11 am

Field Meeting to Derbyshire with Joe Crossley

Meet in the Tegg's Nose Country Park Car Park – Grid Ref: SJ 950 733. Post Code: SK11 0AP sign posted on the outskirts of Macclesfield on the A537 Buxton Road. Toilets & Tea Room available adjacent to the car park. **PARKING IS £1.70 for 3 hours.**

The aim of this Field Meeting is to appreciate the fascinating variety of The Millstone Grit and it's effect on the scenery. From Tegg's Nose we will go along the Buxton Road to Peak View Tea Rooms, Post Code SK11 0AR where members may take lunch. After which the nearby Shining Tor Grit is classically exposed. The majority of the afternoon will be spent around Mam Tor, near Castleton, where the rocks will certainly convince members that all Millstone Grit is NOT the same! **For some exposures HARD HATS are essential.**

Tuesday 19th April 2016 @ 7:30 pm @ LJM U Rm 137

Sensational Silurian Soft Bodied Fossils

By Professor David Siveter
