## Down to Earth Magazine (DTE)

Electronic copies of this publication are available, which we have permission to email to LGS members. If you would like pdf copies of DTE Extra (March 2023) and DTE Extra (April 2023), please email Maggie Williams (Secretary) at [lgssecretary19@gmail.com](mailto:lgssecretary19@gmail.com) and they will be sent to you.

## Brymbo Fossil Forest Open Day

Brymbo Heritage Trust is conserving, restoring, and celebrating Brymbo's rich natural, industrial, and social history. The Trust's Heritage Site at Brymbo, North Wales is the location of the Brymbo fossil forest – a 300-million-year-old fossil forest.

The Trust's first Open Day for 2023 is on **Saturday 22<sup>nd</sup> April 2023**. This is a free event open to everyone and will give you an opportunity to meet the experts, have a chat about what Earth was like 300 million years ago and look at some superb fossils. You can also book onto one of their free fossil forest tours that takes you around the site looking at what's exposed and talking in-depth about the bits yet to be uncovered.

There are limited spaces on these free tours so please request your place by visiting:

<https://www.brymboheritagetrust.org/open-day>

**PS Don't worry if you can't make it – the Trust will be organising some more trips soon!**

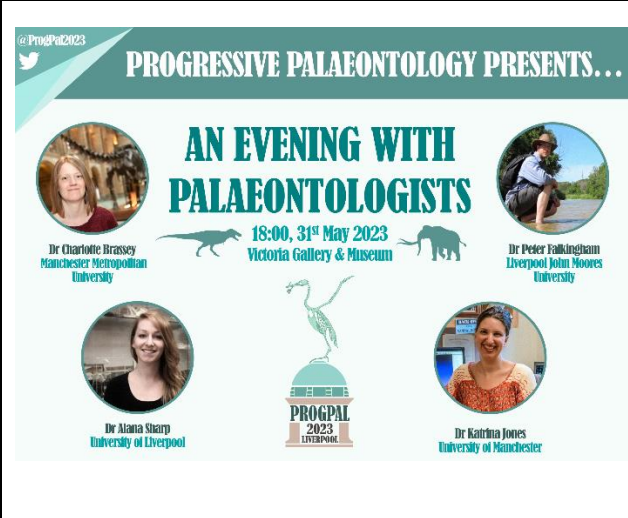

## Geologists' Association (Geology From Your Sofa)

The March edition was adopted by Bath Geological Society on the theme: Made in Stone: Bath and Petra, 2 world heritage sites.

For further details go to: <https://geologistsassociation.org.uk/sofageology/>

## University of Liverpool - Progressive Palaeontology: An Evening with Palaeontologists

	<p>As part of the 30<sup>th</sup> anniversary of Progressive Palaeontology, a postgraduate conference (sponsored by the Palaeontological Association) is being held at the University of Liverpool this year. While the conference is postgrad only, the organisers have sought to broaden its reach by organising a public lecture evening in the beautiful Victoria Gallery and Museum. This will be held at 6.00pm on Wednesday 31<sup>st</sup> May. The idea is to showcase some of the palaeontological research being undertaken at universities in the northwest of England.</p>
-----------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

LGS members interested in attending his event can book tickets via Eventbrite:

<https://www.eventbrite.com/e/progressive-palaeontology-presents-an-evening-with-palaeontologists-tickets-600752044537>.

Tickets are priced at: £5 + Eventbrite fees for general admission and £2 + Eventbrite fees for concessions (students and those in receipt of a pension).

## Geologist's Association Annual Conference

	<p>The theme of the conference is to celebrate the geology of Cumbria, the publication of the two volume Geologists' Association Guide Number 77 and the 50th Anniversary of the Westmorland Geological Society.</p>
-------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
